## PROJECTS

### **TO-DO LIST APP**

Nov 2023 - Nov 2023

The app empowers users to effortlessly list and manage their tasks, offering a seamless experience with React's dynamic capabilities. Its user-friendly interface allows for the addition and deletion of tasks, ensuring a smooth and efficient task

### **QR code generator**

Aug 2023 - Nov 2023

Introducing my QR Code Generator project built with Node.js. This efficient tool empowers users to swiftly generate QR codes for diverse purposes. Leveraging the capabilities of Node.js, the application ensures seamless performance and scalability

### **Random gif generator**

Nov 2023 - Nov 2023

A Random GIF Generator using ReactJS. This fun project not only generates random GIFs but also allows users to search for specific ones by name. Powered by React, it delivers a dynamic and responsive user experience.

### **Top Courses**

Nov 2023 - Nov 2023

Top Courses Page built with React. This interactive platform lets users explore and filter courses based on different categories.

### **Gym Landing page**

Aug 2023 - Aug 2023

A dynamic Gym Landing Page meticulously crafted with HTML, CSS, and JavaScript. This web interface seamlessly combines aesthetic appeal with functionality, providing users with an immersive introduction to your fitness offerings.

**E-commerce Landing page**

Aug 2023 - Aug 2023

Landing Page developed with HTML, CSS, and JavaScript. This visually engaging interface seamlessly integrates credit commerce functionalities

**Simon game**

Jul 2023 - Jul 2023

Simon Game coded with HTML, CSS, and JavaScript. This classic memory and pattern recognition game offers a captivating experience. The user-friendly interface, driven by HTML and styled with CSS, ensures an engaging visual appeal.

**Tin Dog Landing page**

Jun 2023 - Jun 2023

My Tindog Landing Page project, crafted with Bootstrap. This visually engaging and mobile-friendly webpage replicates a dating app for dogs, demonstrating my prowess in front-end development

**DICE APP**

Jun 2023 - Jun 2023

A versatile dice for playing Ludo. This interactive tool enhances the gaming experience, offering a digital alternative for rolling the dice in Ludo. Its user-friendly design ensures a smooth and engaging gameplay.

**Drum Kit**

Jun 2023 - Jun 2023

I have crafted a dynamic drum kit using HTML, CSS, and JavaScript. This interactive web application allows users to play various instrument sounds with a simple click. .
